

Cures Rheumatism

"I had an attack of Rheumatism—pains near my heart—which increased to such a degree that I became very anxious. I had my appetite, and an intense itching or burning of the head made life miserable. I asked a druggist, was there nothing he could suggest, that would help me, and he replied 'Why not try ABBEY'S SALT?'"

I did so, and can now state positively, and without solicitation that the Rheumatism has disappeared—my appetite is greatly improved, the itching of my scalp has ceased.

I suggested to my aged Father and Mother that they should try ABBEY'S SALT, and they did so, and cured their Rheumatism—and they tell me they have received immense benefit."

Given price per application.

INFANTS SHOES

We are showing just the prettiest variety of **Baby Shoes** you'll find anywhere. Here are a few of the expressions we hear, when mothers are looking at them:

The Ritchie Company, we notice, celebrates its fiftieth anniversary today. Fifty years is a long time to look back at, and a good many of us were not on the census returns when the Ritchie company started, but everyone of us, to-day, will heartily congratulate the reliable firm, its products, as well as what pluck and industry it can do. Long may it flourish!

Orange Meat

You are not half as particular about the food you eat as we are about the food we make for you to eat.

Would you ever analyze the food you buy for the family?

We tested Orange Meat for many, many thousands.

Prof. W. H. H. of Cornell's University, Kingston, made test after test and we got word from him that it contained MORE wheat than any other cereal on the market.

Orange Meat is made from healthy bodies and active brains.

It contains no artificial coloring, and no fat for the body to dispose of.

Mr. and Mrs. McDermott are all green. Mr. McDermott, 18, said he obtained his green from the quality of Orange Meat as the smaller one. Write "Orange Meat," Kingston for premium coupons.

The population of Trenton, the Advocate says, has increased 500 during the past year. The city and its western neighbors are jubilant, and with reason. The growing time seems to have hit Trenton and its neighbors simultaneously.

It would appear that Ballerine is the following from exchange:

"People who go to Toronto for the Exhibition, and incidentally to make a few purchases, should bear in mind the fact that the stores there have been found to be so well sellers in the past that they are put forward as bargains for the strangers. The old trash in the stores is sold at a low price, and the goods come out of town. Far better goods at cheaper prices can be purchased from local merchants. The stores and advertisements then decide to do your buying in your own town."

With C.P.R. connection with Tweed and Toronto, with the rolling mills a-going, and an old-time building boom only just started, it would appear that the good old city will soon be on the crest of the wave.

The Band Concert.

It was overcast weather on Queen Victoria park last night, but there was a fine crowd present for all that. The music was usual, enjoyable.

Some Great Corn

Mr. Thos. E. Barber, of Armka-burg, to-day showed us some splendid corn. There were three ears, measuring 17, 15 and 14 inches respectively. It was grown from seed received from the Experimental Farm, the name of which was "Glazier's North Dakota." It was planted on

The Case of Fisking.

Certain London papers profess not to understand why the Conservative

purse (Hon. Mr. Peeling) is in the

election spot, after the length of

time that has elapsed since the elec-

tion. They think the fact that he

is "saddled with seven million" and

admits himself to go on as the dip-

lomat in Nova Scotia had not been

gained by the most correct method.

How Mr. Peeling has been in the

tariff for the coming session, there-

fore, we think about the Conservative

able question for the coming ses-

sion, and, in short, proceed to

business.

This reasoning, says the London

Free Press, is of a party with the

political pig for money, which, as

Ontario schoolmasters has written in

favor of a man who will cut the his

horns in order to get the laurels.

He was tried for a serious crime,

and sentenced to the penitentiary. But

Why? Oh, he had a mother and a

rehabilitated brother to help. "There-

fore, open the prison door and say to

him, 'You are not a criminal, you are

the son of a good man, and you are

pleading as the other."

If Mr. Peeling knows the law by

providing large amounts of money to

purchase votes and thereby "win

votes" over the Conservatives of

Nova Scotia, why should they be

able to conduct in this manner? He

was swept from end to end as by a

hurricane. Was it all foulness for

Mr. Peeling and his friends? It

THE MODERN HUSBAND.

You shall see him in the church-pew, with a smile of radiance that will make his wife's eye sparkle. You shall see him when he comes to the altar, with his hands clasped in prayer. He is a fairly perfect person of the Modern-Husband type!

You shall see him in the ante-room of some Blue Birding club, with his wife sitting beside him, and his hands clasped in prayer. He is a fairly perfect person of the Modern-Husband type!

An extensive series of experiments is being carried on by the United States Government, the results of which will be of great interest in certain portions of Canada. These experiments are to find some of the means of extracting values from the "black sand" which are found in extensive beds in many portions of the country, and more particularly along the Pacific coast. In British Columbia, Alberta and Saskatchewan, there are large, low grade deposits of iron ore, which can be extracted by the means at the disposal of the ordinary miner. The work of the United States Government, which will probably result in the finding of some means of handling these deposits on a paying basis.

MAKE CALLS AT NIGHT.

Favorite Corner of the Arab Ladies of Banagher.

The Arab ladies of Banagher live in great confusion in the large white house, never going out in the daytime from one room to another, says the London Standard. They are cooking and eating in making it their only recreation, though some few of them do knit silk stockings. To lie on their backs and to be fanned by the wind is the usual occupation of the rich women.

If they want to visit their friends, or, if more often than the women live the town, they wait until 6 o'clock in the evening, when a fire is fired from the gun. It is then that it is the girls and last hour of prayer; then they may go and see their friends, who are in large numbers and their houses are filled by very simple people, with elegant suits for the eyes, and many of them wear these in the form of their own hair. Their other garments are trousers and a long robe, which they wear when they are in the street, which is often embroidered and trimmed with gold fringe. They have a number of gold and silver ornaments, nose rings and earrings, bracelets, anklets, and so on.

They are very high in color, many of them have red hair, and they are very much like the women of the East. WHAT THE HAIR TELLS.

Autumn hair makes a kindly, graceful suggestion. Straight hair indicates more power to govern than curly hair. Curly hair is a gentle suggestion of softness and grace. Wavy hair is a suggestion of strength and power. The hair tells many things, and it is a good idea to know what it tells.

Cit Fathers Meet After Long Vacation.

Interesting Matters Discussed Last Night—Some Information About the Tax Rolls—Congratulatory Resolution to Board of Trade Delegates—Surveyors Make a Discovery—Very Pertinent Questions.

When the City Council met last evening after some months' vacation, the Mayor, Mayor Selman and the aldermen present, the board of aldermen were prepared to undertake the full work of the Council with benefit to the citizens. The only absence was Alderman McComb.

COMMUNICATIONS.
From Messrs. Northrup & Roberts, acting on behalf of Mrs. Thomas Kelly, the privilege of making a drain on South Dundas street to connect with the drain on Dundas street, and thence to South Dundas street. A few accounts were also presented.

COMMITTEE OF THE WHOLE.
Ald. Hunter to the chair. The reports of the various committees, as already published, were adopted without discussion. The following accounts were presented:

O. R. Latta — \$4.00
W. C. Latta — 12.00
N. Hamilton — 30.00
A. G. Green — 10.00
L. Latta — 5.75
L. Latta — 10.00
Perks per share — 15.00
Miss Green per share — 1.00

Ald. Green suggested that the alderman leading to the laboratory was the most important, he pointed out the door and the floor of the house of the alderman.

This matter was left in the hands of Ald. Green, with power to act. The position for a sidewalk on a portion of South Dundas street was referred to the Public Works Committee.

The recommitment of the Public Works Committee to the report on a certain portion of sidewalk on Dundas street was taken up.

The alderman stated that the work in question was being reported. The request of Mr. Kelly for a sidewalk on Dundas street was referred to the Public Works Committee.

The request of Mr. Kelly for a sidewalk on Dundas street was referred to the Public Works Committee.

Ald. Hunter thought it was better to leave the building of the street and completed cases, with the alderman, and as we are aware the matter was left in the hands of the Public Works Committee.

AN ADVERTISING BROOKLET.
The Mayor spoke in support of a book which was contemplated to be printed in the city. It was printed and distributed. It would be made in order to be a good advertisement and would be in all probability be the means of attracting visitors to the city. The cost for 2000 would be \$75, and as a number would be bought the cost to the city would be \$25.

Ald. Marsh stated that already some of the aldermen had spoken for to get the city, and more, but he had not yet spoken. The book would contain valuable information for the city.

SOME TAX ROLL INFORMATION.
Ald. Marsh stated that \$15,000 had been deducted to the profit of the alderman for this year. The roll was about ready to be returned and the 1905 roll, returned had been \$25,000, reflected on this year's roll, and the same thing was made in excess of the collection at the same time in previous years.

HERBES A HOWITDO.
Mayor Selman stated that the City Council had passed a resolution, and that 10 feet of the lot was reserved and was upon their share. The alderman was to be returned to the City Council.

Atlantic and Pacific Express
Trains Meet Near Sudbury.

Twelve Excursionists of Harvesters' Train, Which Left
Toronto Tuesday, Killed Outright, and Three Score
Injured—Forty of These Are Seriously Injured
And Some of Them May Die—List of
Dead and Injured.

Sudbury, Sept. 13.—(C) Twelve dead and
three-score injured, many of them seri-
ously, and some, perhaps, fatally, is
the toll of a collision between the
Atlantic and Pacific express trains, which
met near Sudbury, Ont., last night.

Failure of the brakes on the fast
express bound east is held to be
responsible for the collision. The
train, which was the first of the
series of harvesters' trains, was
telescoped. All the dead and injured
were in this car.

The accident occurred about 7:15
tonight, according to the report of the
train No. 1 going west, which left To-
ronto yesterday afternoon, and in the
second section of No. 2, coming east,
which left Toronto at 6:30.

The harvesters' train was to take
the siding and had ahead of it a white
jockey of the switch when the ex-
press plunged into it.

A tremendous crash,
rending of metal and wood, the hitting
of streamer, and then the air filled
with the cries, shrieks and groans of
passengers of both trains.

There were fifteen coaches on the
harvesters' train, with over 300 passen-
gers. The eastbound train was also
well-laden, but these passengers were
scattered, and the work of rescue
was facilitated.

Stylish Dress Fabrics

New Dress Materials have been arriving daily from all points until our showing
is varied enough to give a correct idea of what Dame Fashion favors for the fall
and winter season.

For serviceable wear new fancy dress suitings still hold a very prominent place, the
plaid effect being very new. For fine garments Broadcloths are distinct favorites,
while Amazon Cloths, Satin Cloths, Arctics, Bengaline, etc., are all favorites.

Brown, Navy Blue, Green and Wine shades are the fashionable colors, while
black will hold an exceptionally strong position.

As usual all the style favorites are well represented in our display. The most
exclusive establishments in London and Paris have no newer materials to offer than
can be seen at our Dress Goods Counters.

If you have a spare moment while down street, we will be pleased to have you
inspect the new arrivals.

Fine dress goods in small livable plaids, 45 inches wide, a very neat suiting in

We are told, says the London Free-
Press, that the United States has
now the field is absorbed, and
would have been, but as old as the
hills.

A variation or extension of the
practice of inoculating plants with
curative and nutritive substances.
Exhausted fruit trees are given
sulphuric acid as a tonic. Colored
dusts have been used by the Mexi-
cans. A Russian, who said something
of the penetration of the liquid into
the soil. It runs to the top of the
tree and passed deep into the root.

In disease of stone fruits, injections
of acids, urethane, diuretic and
salicylic acid have been tried, but
the last named had particularly good
effect. It is reported that cultiva-
tors will have influence in pre-
venting variations and new plants as
well as in supplying food and medi-
cine.

It is a long step from this to the
driving of water into the soil. The
charge is made that cattle over-
eat in many instances, call to pro-
vide pure water for their needs,
which are driven to shake their
heads and kick their heels with all
sorts of fits are driven.

The question is not one of
unity to the core alone. It, of course
must to every consumer of milk. Can
pure milk come from such impure
conditions? Barely so.

We have inspectors paid by the
province to look after the quality
of the milk. Are they doing their
duty?

It is said all the inspectors of the
western district of Ontario were
assembled at a meeting of the
board, where the fifty conditions of the
trade formed the subject of a strong
resolving paper, and by the
Ministerial order in chess, and not
one of them in contradiction of
the law.

If in addition to food stabling, such
as chicken, beef, pork, lamb, and
animal, and carelessness at the
factories, there is the initial
stage in providing the water, what
are the people to think of the
product that comes to them for
daily consumption?

We have experiments constantly
being made to test the amount of
bacteria in milk. It seems to be
degraded by our experts that the
degree of richness is everywhere
there is a 4 per cent, of butter fat
it is high and satisfactory test. Not-
withstanding the results of the
test.

Of far more consequence than a
fraction of the bacteria of milk
is "maquie," is the general cleanli-
ness of the conditions under which
the milk is produced, and to be
kept. There is every testimony that
refuse is urgently called for in these
matters.

Pure water for the cattle is a
prime factor in good milk. What
ever is impure in the water which
from a stagnant ditch, into which
the refuse is dumped, may travel
through the beast, as the chemicals do
through the tree located with
them. Yes, cannot get clean milk
from the use of unclean water, or
that it is drunk by the cow or added
to the milk pail.

If the inspectors are good for
anything, they should be able to
find in this far-reaching complaint.

strong there to pull some 65 per
cent. of the total vote in spite of
the corrupt use of money and

surprises. Shouldn't wonder if it
were to go to war state on

The Gospel Herald man has been
told to go to war state on
Christmas day.

"When a fellow is out with his
best girl in a canoe it is always
a little bit of a shock when the
boat is full of water."

To Hamilton there is talk of demand-
ing double pay for Sunday four-
miles. That will probably be the
worst case to get a strike out of
the city.

A man in Western Ontario was "fin-
gery" for "fating" pork,
which means getting the pork
on top and little rinds in the bot-
tom. These "fats" probably are
to be found on any market. Look
out for them, and if you find one
you can't help him.

The Pittsburgh authorities are de-
termined to see that people here
have themselves in the picture
after this. It is possible: there
have been some things on
Baltimore's Newport as are re-
spected by Boston in Pittsburgh,
which means getting the pork

The Montreal Gazette takes an ex-
tremely practical view of the To-
morrow strike. It is not a strike
everybody will not agree. The
dancers would stand out with
their arms raised, apparently.
That is impossible, for, as some
of the party are, they are not
that lowly the old world along.
This is how the Gazette views the
matter.

Canada's Relations With The United States

The expressed desire of the leader of the Imperial Government to settle all outstanding questions between Canada and the U.S. will find little response in this country. The truth is there are no questions on which we are agreed of issue with our neighbors, and any matters that do require adjustment we may be safely trusted to look after ourselves. The Mail and Empire recently pointed out the only serious commercial changes that have taken place in Canada, in so far as the United States is concerned, is a little in our tariff under which the huge importations of manufactured products from the other side will be cut down.

There can be no discussion of the question of reciprocity with tariff in the present condition. The United States tariff is determined against Canada. The tariff under the existing autarkies is radically favorable to a country that desires to buy from Canada. We cannot produce with our neighborliness with the tariff in question. The tariff is one bargaining with the present state of affairs as the basis, we are bound to get the most of it.

On the other hand, it is not to be expected that it is to be ripe for settlement in the North Atlantic. In the present condition, we do not believe that this is a question calling for attention. At all events, it is not a question of the United States. The present tariff of the United States is the result of the tariff of the United States. The tariff of the United States is the result of the tariff of the United States.

(Brain Strain)

By far the commonest cause of MYOPIA, NEURASTHENIA, and other eye troubles, is the strain of the eyes in reading, writing, and other work. The eyes are very sensitive to strain, and the strain of the eyes is the cause of many eye troubles.

A correspondent writes: "I understand that, before long, there is to be a sale of lands for taxes. My father through some mistake, has been told that he can only do so by the purchase, in addition to paying the purchase price, he is to pay the taxes standing against the land. If this really be the case, I think the public is entitled to know."

Our correspondent, in our way of thinking, is quite correct in the above statement. The fact is, the sentence of his letter. But it is possible that the city or its officials will sell the land. If it cannot give a clear title, it is possible that the city or its officials will sell the land. If it cannot give a clear title, it is possible that the city or its officials will sell the land.

Gen. Trepoff Dies In Bed.

**Grim Reaper Himself Foils the
Plots of Revolutionists.**

Nevertheless Russia's Man Of Iron Was Partly a Victim of the Assassins as His Final Illness Was Superinduced by Constant Fear of Taking Off at Hands of the Bomb Throwers—Dictator of Russia a Despot.

St. Petersburg, Sept. 17.—Gen. Dmitri Feodorovich Trepoff, commandant of the imperial palace, died Saturday evening.

For several months he had been suffering from a heart affection, and notwithstanding the fact that he was ordered to abandon a large amount of the routine work, included in his duties as commandant of the palace, he remained in office and was still in touch with the Emperor.

Death of Gen. Treppoff. Fear of Death. — Gen. Treppoff's death was due to natural causes, but the revolutionists could at least claim partial responsibility for his end, as his illness was superinduced by the constant strain due to perpetual duty, and the fact that he had no exercise and recreation during the last two years, wore down his originally superb constitution. He had become nervous of late that recently, when a military attaché of a neutral power was unexpectedly summoned to the palace, Gen. Treppoff sprang to his feet and stood in an attitude of defence, but when he recognized the visitor he

His Death a Surprise.
The end of the life of the great man was unexpected, but his death came as a great surprise. He was able to be up and around to the very last.

His death by death will not have any immediate impact on the policy of the Government, which, for the time being at least, is firmly in Premier Nizhny's hands.

His death is the former prefect of St. Petersburg, will succeed the late Gen. Trepoff as commandant of the Imperial palace.

A Despot by Inclination.
Gen. Trepoff was in many respects a remarkable man. He was a natural despot, a tyrant by inclination, education and conviction. He was one of those men who have constantly appeared, like the Emperor, in the history of this country, just at the time when conditions

Trotsky was not protesting for putting an end to despotism, turning the Russian rulers from Liberalism back into paths of reaction. Trotsky was a police master. He similarly directed his education in the well-paid corps and followed his father's footsteps in the police department. He rose quickly, and, after acting as police master at various points, he was promoted to the position of Sergius, the Governor-General of Moscow. Trotsky soon became Sergius' right-arm in fighting the revolutionary student agitation. He broke up the meetings of the liberal-minded students in the university with police, and in the streets with Cossacks, and had hundreds flogged and many of them sent into exile.

Trotsky's life was many times attempted, but he always escaped.

Dictator of Russia.

When the tirand Duke Sergius was assassinated he was named Governor-General of the Caucasus. He was a true capital, calling for the strongest support in Russia. Trejoff was summoned to St. Petersburg and given the command of the army. He was appointed Governor-General of the city. He took up his residence in the winter palace. The assassin became, in fact, if not in name, a factor in Russian politics. He was analyzing views whose name was anathema—treason—and plot after plot to kill him was distributed and frustrated.

BRAKES BEFORE SIGNAL

Engineer Put Them on Before
Conductor Called Him.

Inquest on Ashtabula Train Disaster Re-
sulted at Sudbury—Train Moving 40
Miles an Hour. Could Have Been
Stopped Twice in the Distance Be-
tween Station and Place of Accident.
Sawyer Engineer Thorough.

Sudbury, Sept. 18.—The inquest on
the Ashtabula train disaster was resumed
yesterday morning with Engineer
Thurston in the box.

He said he applied the brakes before
the signal had been given to the con-
ductor. He knew the service affected
only a few cars. At the same time he
gave the conductor's signal the conduc-
tor applying the emergency brake he
saw the train stop.

Thurston supposed the conductor
feared the train might not be brought
up to time.

"The air was tested at Chatham and
found all right."

A juror asked: "What do you say as
to stopping the train in the distance
between the station and the place of
accident had the brakes been in place?"

"A train moving forty miles an hour
could not stop in the distance," he said.

Conductor Thomas Kehoe said after

Rebel Voice Is For War.

Leaders at Bejugal Exerted Pal- ma's Peace Proposals.

Pino Guerra Elected By the Leaders of the Rebel
Forces to be Major-General of the First Division
and Castillo of Second—Rodriguez Wounds 115
Rebels and Sends Them to Hospital—
Palma Arraigned.

Havana, Sept. 18.—At a meeting of
rebel leaders, held in the town hall, at
Bejugal yesterday, it was decided, after
the number of violent speeches had been
delivered, not to accept the peace propo-
sitions of the Government.

The leaders of the rebel force in the
western part of Cuba held a general
meeting Sunday near Bejugal and
elected Pino Guerra to be major-general
of the first division, and Yusef Ben
Castillo to be major-general of the
second division of the insurgent army.
Adery, Mrs. Ambrusa and Cruz were
chosen brigadier generals.

Wounds 115 Rebels.

Gen. Rodriguez, the commander-in-
chief of the Government forces, reports that as
a result of his fight with the rebels at
Wadoy, Sept. 14, 115 rebels were wound-
ed and sent to hospitals. The Govern-
ment in this engagement had several
men killed and 11 wounded.

A small force of insurgents attacked
at 10 Government outposts in San Juan,
near Habana, Sunday, but were re-
pulsed.

Word has reached here of the first
meeting of the rebel forces. Four hun-
dred rebels under Col. Dabois met the
Government forces at Cayman. The re-
sult of the engagement is not known.

Explosion at Havana.

A violent explosion occurred here
yesterday morning and wrecked sev-
eral buildings. Six persons were killed
and many wounded. No details of the
cause are yet at hand. The ex-
plosion is thought to be the work of
liquidators. The buildings at the
Casco Viejo, Jend and several others
will be taken from the wreckage.

The buildings here destroyed are
all at risk.

Washington, Sept. 18.—Commodore
Coburn of the cruiser Denver, at Ha-
vana, telegraphed the Navy Depart-
ment yesterday that it was quite clear
that the rebels had no chance of success
and a definite settlement of the trouble
was possible.

Com'd to Grief—Storm Lasted For
Two Hours.

Hong Kong, Sept. 18.—A terrific
storm broke suddenly here yesterday
afternoon, lasting two hours and de-
stroying innumerable native cities and
causing much loss of life. The harbor
is literally strewn with wreckage, and
the streets of the city are choked with
debris.

An unknown steamer collided with
the British steamer *Strathmore*, se-
verely damaging the latter.
The British steamer *Long Sang* col-
lided with the British steamer *Clay*
during the night.

The river boat *Pinghang* found the
French mail boat *Polytechnique*.
C. P. R. Steamer *Montague* Driven
on Shore, the German steamer
Emma Layken, the British steamer
Chase, the German steamer *St. Paul*,
the Korean ferryboat and a water-
boat were driven ashore.

The American steamer *Burgess* and
the German steamer *Johanna* are
awash.
A Japanese steamer is stranded on
Kee's Island. The British river gun-
boat *Shanghai* is badly hurt. French
torpedo boat destroyers are ashore,
and two others dragged their anchors
and the entire length of the harbor.

The C. P. R. steamer *Empress of Japan*,
was saved by the dock company's
lugs keeping her steady.
The American ship *R. B. Hitchcock*
was driven high and dry on shore.
The British river steamer *Keweenaw*
Chow, French and Spanish found-
ered.

The French steamer *Ch. Hardouin*
was damaged. The little Chinese steamer
or Wing Chai was holed.
Numerous steam launches and light-
ers foundered, and most of the wooden
boats on the waterfront were demolished.

Twenty Frenchmen Killed.
The military quarters and temporary
buildings were demolished and the men
are quartered in the casemates of the
fort.

WE CLAIM

That the HARRY THOUGHT is the
best cooking apparatus ever offered
to the public. For confirmation of
this claim refer to the many orders
all over the country. It is also
easier to use, simpler than the
others, and it is the only one that
does not take up more space. Refer
to any one of them.

TIMELY TOPICS.

WHEN COMPANY COMES.

Sometimes men come alone, what's that you look alike like a figure. She must be a pair of may old shoes. And when her own are always light. She does her hair up in a knot. No longer than a chicken's egg. And doesn't call it "the" when what the man is seeking but a nut. But, jim-me-no! you ought to see how she can change! She's pretty now. As sweet as any girl could be. When company's here.

She often grows with the way. The meat is cooked, and piker cooked. He has so many bills to pay. And when the coffee's cold, he's jaw.

And he has to hunt his socks. Or some one's used his brush or his comb. It's terrible what he knows. A day's work for some boys. But, jim-me-no! you ought to see how he can change! He's pretty now. And how de-lightful he can be. When company's here.

Sometimes, when he is fella's going. And when he has had a spat, she says my car and makes him grin. And says that I'm a little better. One day she told me to my face. And then she said, "I've got a nut for you." And chased me all around the place. But, jim-me-no! you ought to see how she can change! She's pretty now. As sweet as any girl could be. When company's here.

And even in the morning, when she has no switch on, she'll be sweet. Oh, you'll hear long it seems to me. "Geezer" in! But I won't care, because they'll always probably be company's here.

The church is supposed to be founded on a rock, but in England the discovery has just been made that Waterloo Cathedral began in straw. And the bricks there being used as a base layer.

Census returns indicate that there are one million people west of the great lakes. And that million have about as much vitality in them as the other five million of our population thinking day and night to keep pace with their advancement.

The Federation, N. B. Herald says: There seem to be a great many who call at Canterbury in this county. Our reporter there mentions the fact that the people of the Madison Hotel in the city of the Orange Hall for the benefit of their church, and raised a considerable sum.

"The forty days and forty night shall be overthrown," pretentious Prince Michael of Flying Hill says. When the census began the Canadian immigration agents should not have dreading the righteous Yanks over the ether to the land of prosperity, peace and safety.

The deplorable amount of railway in American financial circles reveals deep-seated moral decay. If our old debts are passing agency must have other means of self-defense. Henry's sentiment in his statement of the modern scientific mechanism, and we must to maintain it in its fit and proper place. We must expel the dishonest as some birds expel the diseased members of the flock.

A fountain of soap bubbles is presently being attempted in England, says Technical World Magazine for September. A fountain is arranged to throw 20,000 bubbles, the machine may be blown with a fan and sent up into the air. The beautiful effect is when the soap shines on this fountain may be interesting. At other times artificial lightning and the use of colored fires add to the beauty and interest. The bubbles are so arranged as a substitute for pigeons or glass balls in marksmanship contests.

A Baltimore reporter, as noted some days ago, has just received from the French Academy a gold medal for his language of a detachable buckle, which he says he invented "to obviate the bad habit of cursing" which he has observed in people when manipulating buckles, their garments. He describes that medal. Some day a member of his kind will invent non-swearing buckle and collar buttons.

One of the most interesting of the tales told in the books of travel, is the story of the explorer, most extraordinary. One writer tells of a man who was in a boat for four or five days and four or five miles from shore, and four or five miles from land, and four or five miles from the sea, and four or five miles from the sky, and four or five miles from the earth, and four or five miles from the sun, and four or five miles from the moon, and four or five miles from the stars, and four or five miles from the planets, and four or five miles from the galaxies, and four or five miles from the universe.

When a sick person is becoming convalescent, it is best to keep him in a warm, dry, and comfortable place, and to give him a diet of light, nourishing food. It is also best to keep him in a room where the air is pure and fresh, and to give him a good deal of exercise, and to keep him in a cheerful and optimistic state of mind.

PALMA REJECTS PEACE

Which Secretary Tain Says Honorable to Him.

United States Minister to Her Majesty and Says the Situation is Most Disquieting—English View Thoroughly British—Reverend Appeal to Palma to Accept Only Conditions by Which Spain Can Be Restored.

Havana, Sept. 25.—Secretary Tain yesterday afternoon said: "The Government officials, instead of co-operating with us to save the republic, have resorted to every kind of coercion with the object of continuing their control of the situation. The President has refused to accept any conditions which would result in the rejection of terms of peace which would be honorable to him, though in the form of a compromise with their opponents." "We are still striving to arrange a settlement, and we trust the American people will give us credit for doing everything possible to accomplish a settlement without bloodshed."

A disquieting situation, he added, would be our benefit, for I have never known a more disquieting situation.

"Intelligence confirms us that the elections were thoroughly rotten. We do not want to intervene, but

in conditions and may necessitate. Our reports show that the situation is most disquieting. The President has refused to accept any conditions which would result in the rejection of terms of peace which would be honorable to him, though in the form of a compromise with their opponents."

The American commissioners have decided not to keep their engagement to revisit President Palma because of his attitude yesterday. Secretary Tain added that the terms of peace which he had offered to the Cuban Minister, who was here for the first time, were not acceptable.

Aspirant From Roosevelt. President Roosevelt has called to President Palma, according to the latest report, to accept the terms of peace proposed by Secretary Tain, and then to accept the terms of peace proposed by the American commissioners. The President has refused to accept any conditions which would result in the rejection of terms of peace which would be honorable to him, though in the form of a compromise with their opponents.

in conditions and may necessitate. Our reports show that the situation is most disquieting. The President has refused to accept any conditions which would result in the rejection of terms of peace which would be honorable to him, though in the form of a compromise with their opponents."

Joseph Bellaine Surrenders For Shooting Boy Keyes.

Said Details of Accident Which Deceased Fire Ranger of St. Catherine in Cobalt District Received—Hit By a Stray Bullet in Mistake by a Hunter After Bear—Had No Motive Otherwise Far Deed.

St. Catharines, Sept. 25.—Pall do not of the full accident to Roy Keyes, only son of Dr. J. H. Keyes, of Cobalt, Ont., who was killed by a stray bullet from a hunter's rifle. The young man left camp on Tuesday, saying he was going to try for a porcupine, and taking his rifle with him. As he did not return that night, searching parties were sent out, and about 7 o'clock on Saturday night they found his body about forty yards from the road, with about two feet away. He had been shot through the body by a bullet which was hit by a stray bullet, or that he may have been taken for a bear and killed by a hunter. The body was brought to St. Catharines on Monday, and the funeral took place yesterday.

Thomas Keyes, a bear hunter, George's apartment has received a letter from Dr. J. H. Keyes, of Cobalt, Ont., who was killed by a stray bullet from a hunter's rifle. The young man left camp on Tuesday, saying he was going to try for a porcupine, and taking his rifle with him. at the request of Judge J. H. Keyes, who was killed by a stray bullet from a hunter's rifle. The young man left camp on Tuesday, saying he was going to try for a porcupine, and taking his rifle with him. As he did not return that night, searching parties were sent out, and about 7 o'clock on Saturday night they found his body about forty yards from the road, with about two feet away. He had been shot through the body by a bullet which was hit by a stray bullet, or that he may have been taken for a bear and killed by a hunter. The body was brought to St. Catharines on Monday, and the funeral took place yesterday.
